

Part III

8.2 Fees

for

Public Airfield Giebelstadt

EDQG

1. General

For landings of aircrafts / ultralights the owner or pilot has to pay a charge (landing fees) in accordance with the fee schedule of the aerodrome operator (Airfield Giebelstadt GmbH).

The landing fee is payable upon landing. It is a consideration within the meaning of § 10 section 1 of the VAT act. Therefore the airfield user has to pay VAT, separately shown on the invoice.

Landing fees have to be paid for touch-and-go landings also.

No landing fee is payable for flight movements of a rotary wing aircraft within the airfield, which correspond to the rolling movement of aircraft.

2. Calculation Rules

For airplanes, helicopters, ultralight aircraft and self-starting motor glider, the landing fee depends to the maximum take-off mass (MTOM) and the noise level, entered in the certificate of registration of the aircraft.

The increased noise protection is proved if the certified noise level is pursuant to § 4 (4) of the Airport Noise Abatement Ordinance (LLV), 5.1.1999. For aircraft not registered in Germany, attachment 1 of LLV applies accordingly.

The noise certificate has to be presented to OPS of the aerodrome operator for calculating prior to the next departure.

3. Actual Fees

3.1. Airplanes, helicopters and self-launching motor gliders

3.1.1. Aircrafts acc. 3.1. with noise certificate to fulfill noise reduction according LLV, §4, 5.1.1999.
